

COVID-19 REINFORCES THE NEED TO BUILD TRUST AND PROTECT BUSINESS BY SUPPORTING PEOPLE

Planning + people + process
improvement

RESPOND

- Focus on the here and now
- Do what is necessary

PREPARE

- Understand what is changing
- Lay the foundation for recovery.

TRANSFORM

- Acknowledge and embed changes
- Focus on executing new plans

COVID-19 EMPLOYEE WELLBEING AND BUSINESS CONTINUITY ASSESSMENT SUITE WILL ASSIST YOU TO ENSURE YOU GET THE BEST PEOPLE FOR YOUR BUSINESS AND HELP THEM BE THE BEST THEY CAN AT WORK

CJHNetwork would like to let you know about The COVID19 Employee Wellbeing and Business Continuity Assessment Suite available from the People Performance Alliance. This is an integrated set of business diagnostic tools. It helps business leaders navigate today's challenges by building trust with their people. Through a series of three online employee surveys and follow up activities, leaders can understand their people's needs and how to meet them.

Learn from people's experiences at home, interactions with customers, and emerging ideas for improvement. The tools are available in pulse or full diagnostic versions, work on any internet connected device, and are easy to set up. Move from simple, reactive survey 'check ins' to a meaningful business continuity management process that protects people and helps business cope.
